

Lab 3: Inverse HTA diagrams

- Today, you'll be creating an "inverse" HTA diagram:
 - i.e. I give you the structure, and you populate with a realistic task!
 - <https://app.createely.com/diagram/rudUt3AEdN3>
- I have put the template in [Creately](#), you can either create an account and use the template, or re-draw it with any other tool you like:
 - You can see the template on the next slide.
- You can do this exercise in teams!
- Make your best effort to follow the template, although if this is not possible, you may do up to two changes!
- After ~40 minutes, we will go around so that your team can present the resulting diagram.
